This course is appropriate and adaptable to school based training with students and staff.

Description

Aimed at teachers of K.S.2 children this Workshop considers and develops the use of ICT in Geography. To complement the pen and paper the computer can improve analyses and presentation in Geography. Visit and see a location in a different area of the country or another country, all from your P.C.

Aims to :-

- Plan routes and distances.
- Working with Local Maps and Aerial Pictures.
- Present Information.
- Consider Geography Resources on the Internet
 - Including Views from Space and Visiting other Countries.

Approach

Geography doesn't exist in the classroom but technology enables educators and pupils to travel the world. Based largely on internet access we will travel and look at Geography.
