This course is appropriate and adaptable to school based training with students and staff.

Description

Softease, best known as Textease Studio CT was popularly installed as part of RM (Research Machines) PC's software. Studio CT treats a page as a multimedia experience. Write anywhere on the page, manipulate text, video and graphics with a couple of clicks. Explore modules that include Text, Presenter, Database and Spreadsheet.

Aims to:-

- Develop the notion that a page can easily contain a variety of displayed media including video, sound and pictures.
- Make posters newspapers and pages of varied sizes.
- Explore how  relates to the functionality of creating with Textease CT.

Approach

The workshop enables participants to explore and create. The session will be a mixture of 'how to' and trying it out in a context relevant to staff.
